

My family and I listen to K-Love 24 hours a day. It encourages us in our beliefs and values. There have been many times when I could not take all of life's pressures and KLove was there to encourage me to continue the good path. They have also supported my family and I through prayer. Klove keeps our communities whole by keeping us from committing crimes and other behaviors that destroy our families. If Klove was replaced by LPFM it would be a tragedy and a great loss which will cause increase in government funds to support single mothers, abuse, drug addiction and so many other negative outcomes. Klove supports families and young people to do good in life and to give instead of taking from others. Please do not give LPFM priority over wholesome family broadcasting. We support Klove with our money and if we did not believe in them, we would not invest our money in them. TV is full of non-family friendly sitcoms and commercials, don't do the same to the radio stations accross the country. We plead with you to think about families and how Klove supports families to thrive.
